

# INSTALLATION INSTRUCTIONS

Part Number DU-1006

**This filter fits:** SEE CATALOG FOR CURRENT APPLICATIONS

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N Filtercharger® seals properly.

## INSTALLATION

1. Remove the stock air filter.
2. Install the K&N Air Filter with the raised seal bump facing up. (Fig. 1)  
**CAUTION: If the filter is installed with the flat side up it will not seal correctly.**
3. Push the K&N Air Filter into the air box until it is flush with the surface of the air box. (Fig. 2)
4. Reinstall the air box lid.

**THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.**
